Filtered D-Sub Connectors

EMI Solutions’ D-Sub filtered connectors offer the convenience and flexibility of standard configurations while delivering unsurpassed EMI/EMC performance.

Designs for all Mil Spec D-Sub Connectors:
- MIL-24308
- MIL-83513

Filtering Options:

C & Pi Filters:
- Highest Filter Performance with Minimal Resonance
- Insertion Loss of 70 - 80 dB
- Limited number of available capacitances and variations

Chip Capacitor
- Good for “notch” type filtering
- Reduced higher frequency performance due to chip cap resonance
- Insertion Loss of 40 - 45 dB
- Wide variety of capacitances and variations available

Transient Voltage Suppression (TVS) Components Available with all Filtering Options

Termination Options
- Solder Cup
- PC Tail
- Wired

Filtered connectors are the best means of eliminating unwanted noise from any electronic system. Using filtered connectors eliminates the EM and RF noise that will be picked up through the contacts/leads generated by any internal or external source right at the connector’s interface. There are a multitude of ways to filter or shield at the board level, but none can outperform filtering at the boxes’ interface.

About EMI Solutions:

Headquartered in our expanded facility in Irvine, California, our company was established in 1996 based on the development of our FlexFilter inserts for EMI filtering. Over the years, EMI Solutions has steadily grown by diversifying our product offering to meet our customer’s needs.

With over 20 years of acquired expertise in the EMI/EMC marketplace, combined with continuous improvement in materials and processes used to develop our products to comply with the AS9100 and MIL-810/DO-160 standards, we are now recognized as the leading woman owned small business manufacturer of EMI filtering products for the military and aerospace supply chain, as well as a diversity of commercial applications.
We are the only company in the world that manufactures BOTH filter inserts and filtered connectors

ACHIEVE FILTERING OPTIMIZATION

STOP EMI
AT THE CONNECTOR INTERFACE

✓ Widest Range of Cost Effective Filtering Solutions
✓ Easy Access to Engineering
✓ Industry’s Shortest Filtered Connector Lead Times
✓ FlexFilter Insert Samples Ship in One Business Day

www.4EMI.com

FlexFilter Inserts
- Cost Effective
- Quick Turn EMI filter
- TVS Component options
- Fits existing Mil-Circular and D-Sub connectors
- Ideal for high voltage and severe environments

Filtered Mil-Circular
D38999, M26482, M5015, M83723
- Chip Cap, Discoidal, Planar or Pi Tube filtering on pin by pin basis
- TVS components

Filtered D-Sub
M24308, M83513
High Density options available
- Chip Cap or Pi Tube filtering on pin by pin basis
- TVS components

Feed-Thru Filters
- Hermetic and Non-Hermetic Options
- C, CL and Pi Filter Types
- Press in, Solder in or Screw in Termination Options

Custom Specialists
